

# How Can We Be More Flexible With:

Teaching	Time	Materials & Tasks	Groups	Space
Provide notes for students who struggle with taking them	Allow students to move ahead in texts & with skills	Provide reading & web material at different levels	Meet with students in small groups to re-teach or extend	Provide space for peer collaboration
Stop often for student sharing and questions	Provide 2 <sup>nd</sup> opportunities for mastery	Use contracts, tiering, mini-workshops, etc.	Use heterogeneous review groups	Use cue walls, help boards, word walls
Use past student work as models	Allow drafts to be turned in early for teacher review	Use computer programs for review & extension	Use homogeneous work groups (esp. for adv. learners)	Provide space for learning &/or enrichment centers

**To Address Readiness**
